*Addressing the needs of your loved one*

## An independent lifestyle brings fulfillment

Whether you need around the clock care or assistance for just a few hours a day, Essential Care Companion Service is here to help. Our service options are flexible and customizable according to your specific situation, and your personalized senior care plan can be a combination of any of our service offerings.

We begin by reviewing your needs through discussions with involved family members and when necessary, we consult with the physician(s) of the care recipient, social workers, hospitals, or nursing home staff to be certain that your loved ones' care is consistent and that everyone is on board with creating the best possible lifestyle.

Next, working in conjunction with the family, we develop an individualized program to manage your daily needs. We match your needs to the best possible caregiver, bring them to your home and ask you to participate in the selection process.

Essential Companion Care Service administers accommodations that make life more empowering and independent while providing around the clock care, services, companionship and support to families.

We understand demanding schedules and know that it is difficult to be in two places at the same time. Let us assist. We work with and around your schedule, focusing our attention on the entire family to assure you and your loved one get the attention and assistance needed.

At Essential, our philosophy is to go above and beyond to make life more essential, comfortable, peaceful, joyful, secure and possible. We aim to increase the quality of living for all seniors, helping them maintain independence and an enjoyable lifestyle.

Being a companion is more than just our mission, it is our pride. It is why we are here, to make life easier, brighter, and better each day for our beloved clients.
